General Boat Description

The Back Cove 390 is the fastest and quietest Back Cove model yet.

Her cockpit is a fun and relaxing space with transom gates to port and starboard, a U-shaped settee across from an aft-facing seat, and a central table for al fresco dining and entertaining. Expansive storage below the cockpit is easily accessed through a large actuated hatch, and provides generous accommodations for all of your water toys and gear.

The 390 offers a hard back for a fully enclosed helm deck; a unique design in this segment, which allows for climate-controlled comfort and an extended boating season with optimal protection from the elements. Her indoor social spaces keep everyone connected, featuring a galley up design and side-by-side captain and mate seats opposite a comfortable U-shaped settee. The result is a perfect space where the crew can enjoy a meal, or lounge while staying out of the sun or the rain.

Below deck, owners and guests can relax in the privacy of a lower lounge and stream a favorite program to the Smart TV. The spacious owners' cabin forward offers a queen-sized island berth and private access to the head and shower. For the crew, two single beds in the guest cabin are secluded, well proportioned, and comfortable.

She has a 300 mile+ range at cruise, and a top-end speed of 37-knots with triple Mercury v10 400 outboards. The 390 hull design will feature Back Cove's proprietary Trailing Edge Lifting Surface (TRELIS) ? for optimal handling and performance.
