Fresh Water Tanks: 150Gallons

Fuel Tanks: 2345Gallons

General Boat Description

Jupiter 34LX: Performance, Comfort & Innovation

Great Bahamas Boat!

The Jupiter 34LX seamlessly blends luxury, performance, and versatility, making it the ultimate choice for discerning boaters.

At the helm, the expansive console extends to the starboard covering board, offering ample space for large-screen electronics and essential navigation equipment. A wraparound windscreen and sturdy hardtop provide exceptional protection from the elements, while the high-sided forward seating area ensures a comfortable, private escape. Below the helm, a soundproofed locker houses a Fischer Panda generator, delivering quiet and reliable power.

Designed with both functionality and comfort in mind, the leaning post features dual bolstered helm seats and an aft-facing bench for two, perfect for socializing. The cockpit is loaded with premium amenities, including a folding transom bench, dedicated rod storage, and a convenient dive door for effortless water access.

Below deck, the 34LX maximizes space and comfort, featuring an amidships berth tucked behind the companionway and a convertible V-shaped dinette in the forepeak, offering additional sleeping accommodations. The enclosed wet head and a fully equipped galley—complete with a microwave, sink, and under-counter fridge—ensure extended cruising comfort.

Powered three Yamaha 300-horsepower outboards with **very low hours**, the integrated transom bracket delivers thrilling performance. Jupiter credits its Posi-Stern hull pad for maintaining optimal running angles across the entire speed range, ensuring a smooth and efficient ride. Whether you're chasing the horizon or relaxing in style, the Jupiter 34LX is built to deliver an unmatched boating experience.
