Aspen T10 2026

Year: 2026

Length: 10 ft

Price: \$15,200

Located in: Burlington, WA US

Hull Material: Composite

Engine/Fuel Type: Other

YW# 4390815

Make

Make: Aspen

Measurements

Length Overall: 10.17 ft

Beam: 5.33 ft

Engines

Total Power:

Year Built: 0

Engine/Fuel Type: Other

Engine Hours: 0

Tanks

Fresh Water Tanks: 00Gallons

Fuel Tanks: 00Gallons

General Boat Description

Aspen Carbon Cat

Aspen Carbon Cats are ultra light weight, durable tenders made of carbon fiber with a super-efficient hull design.

This hybrid design starts with a deep single-entry forefoot that smoothly cleaves through waves for

improved tracking and spray resistance. The hull contour then gently widens aft and at the stern resembles a modified catamaran hull which provides lateral stability and lift.

From the experienced boat building team at Aspen Power Catamarans comes a new series of lightweight rigid tenders that are unlike any boat built before. Carbon Cat's unique patent in process hull form provides the stability of a catamaran or an inflatable RIB but utilizes lightweight carbon fiber construction making them fast, efficient and easy to handle.
