Engine Type: Outboard

Engine/Fuel Type: unleaded

Engine Hours: 0

Engine Power: 30|horsepower

Tanks

Fresh Water Tanks: 00Gallons

Fuel Tanks: 00Gallons

General Boat Description

Built Right - Rides Right!

The T13C is the flagship of the durable and dry riding Carbon Cat line. The Console has comfortable twin seats, wheel steering, easy access to throttles and a windshield. There is storage forward of the console and in the forepeak. The T13C is fast versatile and fun to drive. The seated console driving position improves visibility and maintains balance while cruising, docking and boarding.

Like all Carbon cats the T13C has a unique hybrid-cat hull with a narrow forefoot that transitions into twin hulls aft. This design provides excellent stability, handling, and fuel economy while delivering a smooth dry ride.

Built using ultra strong and low weight Carbon fiber composites, the T13C is incredibly durable and versatile. It can be beached and can be hauled using a variety of davit configurations, and is easily trailered.

Posted pricing includes engine, chart plotter and common options.

Each boat is built to order, T13 Console start at \$28,450.
